TELLS ON THE KIDNEYS

Yuma People Have Found This to Be True

The strain of overwork tells on the weakened kidneys. The hurry and worry of business men, the heavy lift- and all other classes of pavement we ing and stooping of workmen, the women's household cares, tend to wear, weaken and injure the kidneys until that the interests of the taxpayers they can no longer filter the poison from the blood and the whole body suffers from the waste matter that accumulates. Weakened kidneys need quick assistance. Doan's Kidney Pills are especially prepared for weakened kidneys; tired, worn-out backs-have proven their merit in thousands of cases. Below is convincing proof 'rom this locality:

J. W. Smith, blacksmith, 744 West Fillmore St., Phoenix, Ariz., says: The heavy work in my business made my kidneys weak. My back ached and I was so stiff that I could hardly bend over. I had headaches and dizzy spells. The kidney secretions were unnatural. Doan's Kidney Pills sure strengthened my kidneys and the pains disappeared. The five dollars worth of Doan's Kidney Pills I used were worth many hundred dollars to me. I ;ive Doan's Kidney Pills the entire redit for curing me."

"Why did the Advisory Commission and the Board of Supervisors call for bids on Warrenite' when it was not originally specified?"

This answer came from Judge Thacker, Mr. Johnson and Mr. Bridge:

"Warrenite was not originally specified, we understand, for the reason that the consulting engineer assumed that it could not be laid here at a price competing with concrete. When representatives of the Warren Bros. company assured us that it merits of the pavement.

"From many sources we were in formed that it was a high class patented pavement of long life and great earing ability. We believed that if what we were told by disinterested the county could best be served by adnitting this type of pavement to conideration and allow contractors to out in bids on it competing on an equal footing with all other types of

"Our sole object has been to secure he best possible type of pavement for Yuma county for the money we have to spend, and we did not feel that the jest results could be obtained by refusing to receive competitive bids on any high class type of consturction.

"In permitting blds on 'Warrenite' were not prejudiced in favor of any particular type, but we did believe could best be served by receiving the competitive bids on all classes. In other words, we believed that the bidding should be open to all comers, rather than be closed to all except a few bidders of one particular type of

"Before deciding to receive bids on Warrenite' pavement, we made a horough investigation to satisfy ourselves that it was good enough to be considered.
